WHO WE ARE

Bison Tech Security Operations Centre (SOC) is a team of skilled cybersecurity professionals dedicated to monitoring, detecting, and responding to cyber threats around the clock. Our SOC services provide real-time protection for your organisation's endpoints, networks, users, and cloud infrastructure ensuring early threat detection, rapid incident response, and minimal business disruption.

WHAT WE OFFER

End-to-End Cybersecurity You Can Trust.

Protecting your business, people, and partners, every step of the way.

Stronger Security. Smarter Protection.

Powered by Bison Tech.

Confidence in Every Connection.

Securing your systems, users, and supply chain. All in one place.

Defend. Detect. Respond.

Evolve with Bison Tech by your side.

Your Cyber Resilience Starts Here.

From threat detection to incident response. We keep you secure.

OUR CAPABILITIES

Stay one step ahead of cyber threats with **Bison Tech's Security Operations Centre (SOC).**
Your 24/7 cybersecurity command hub.

Our expert team continuously monitors your networks, endpoints, users, and cloud environments to detect, respond, and neutralise threats before they can impact your business.

Building and managing an in-house SOC can be complex and costly, but it doesn't have to be. With Bison Technology's SOC as a Service (SOCaaS), you get enterprise-grade protection, advanced threat intelligence, and rapid response capabilities, all without the heavy investment.

Protect your business. Strengthen your resilience. Partner with Bison Tech.

OUR CAPABILITIES

Managed Detection and Response (MDR) Always On, Always Watching

If your internal team is overextended, missing critical alerts, or unsure how to stay ahead of evolving cyber threats, Bison Tech's Managed Detection and Response (MDR) service has you covered. Our expert SOC team provides 24/7/365 monitoring, real-time threat detection, rapid containment, and incident response. Ensuring your business stays protected at all times.

Beyond continuous protection, we deliver comprehensive security management with monthly insight reports, quarterly threat analyses, and annual incident response exercises to strengthen your readiness. Our phishing simulations keep your team sharp and security aware.

Stay protected. Stay informed. Stay resilient. With Bison Tech MDR.

Cyber Incident Response. Be Ready Before It Happens.

When a cyber incident strikes, every second counts. Bison Tech's Cyber Incident Response services ensure your organisation is prepared to act fast, minimise impact, and recover with confidence.

Our team provides incident assessments, response planning, hands-on training, and real-world tabletop exercises, empowering your people, processes, and technology to handle any cyber threat effectively.

Prepare. Respond. Recover with Bison Tech by your side.

Supply Chain Security Strengthen Every Link

Your organisation is only as secure as your supply chain. Bison Tech's Supply Chain Security service gives you complete visibility into supplier risks and helps you build trust across your business ecosystem.

Through our expertly managed service and the powerful Vendor UpGuard dashboard, we continuously monitor, assess, and manage third-party risks ensuring your partners meet the same high security standards you do.

See clearly. Act confidently. Secure your supply chain with Bison Tech.

MANAGED SERVICE PROVIDER

Optimised Infrastructure. Seamless Operations.

Beyond security, Bison Tech ensures your entire IT ecosystem is robust, scalable, and high-performing. We take the complexity out of technology management so you can focus on your core business.

- **Proactive Infrastructure Monitoring:** We don't wait for things to break. Our team monitors your servers, networks, and hardware to identify and resolve issues before they impact productivity.
- **End-User Support & Helpdesk:** Direct access to skilled technicians for troubleshooting, hardware setups, and software support for your entire team.
- **Cloud Management & Optimisation:** Expert oversight of your Microsoft Azure or AWS environments to ensure cost-efficiency and performance.
- **Backup & Disaster Recovery:** Comprehensive data protection strategies ensuring that your business can recover instantly from any data loss event.
- **IT Strategic Consulting:** Aligning your technology roadmap with your business goals through vCIO (virtual Chief Information Officer) services.

Keep your business moving. Eliminate downtime. Scale with Bison Tech MSP.

PATCH MANAGEMENT

Cyber Incident Response Be Ready Before It Happens

Outdated software and unpatched systems are a top entry point for cyber-attacks. Bison Tech's Patch Management services ensure your applications, operating systems, and endpoints are fully updated with the latest security patches.

Our team delivers proactive patch assessment, testing, deployment, and monitoring, keeping your systems secure, compliant, and operational with minimal disruption. By closing vulnerabilities before attackers can exploit them, Bison Tech helps you reduce risk, prevent downtime, and maintain business continuity.

Stay protected. Stay compliant. Stay operational with Bison Tech Patch Management.

Why Choose Bison Tech?

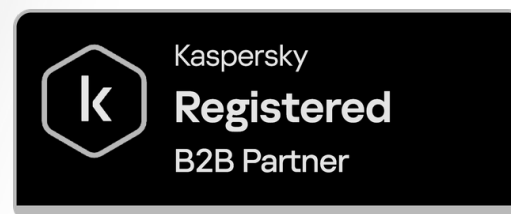

We combine expertise, technology, and real-time intelligence to deliver a holistic cybersecurity approach. From SOC and MDR services to incident response, supply chain security, penetration testing, and patch management, we provide everything your organisation needs to stay secure, compliant, and resilient in today's rapidly evolving threat landscape.

- **Unified IT & Security:** Eliminate the "blame game" between your IT provider and your security team. We manage both under one roof.
- **24/7/365 Continuity:** Round-the-clock monitoring for both security threats and infrastructure uptime.
- **Strategic Scalability:** Enterprise-grade infrastructure and security tools without the massive capital expenditure of in-house teams.
- **Global Partner Ecosystem:** Leveraged expertise through our tier-one partnerships with Microsoft, Lenovo, and Fortinet.

Protect your business. Empower your team. Strengthen your digital ecosystem with Bison Tech.
