WHO WE ARE

Bison Tech Security Operations Centre (SOC) is a team of skilled cybersecurity professionals dedicated to monitoring, detecting, and responding to cyber threats around the clock. Our SOC services provide real-time protection for your organisation's endpoints, networks, users, and cloud infrastructure — ensuring early threat detection, rapid incident response, and minimal business disruption.

WHAT WE OFFER

End-to-End Cybersecurity You Can Trust.

Protecting your business, people, and partners, every step of the way.

Stronger Security. Smarter Protection.

Powered by Bison Tech.

Defend. Detect. Respond.

Evolve with Bison Tech by your side

Your Cyber Resilience Starts Here.

From threat detection to incident response. We keep you secure

Confidence in Every Connection.

Securing your systems, users, and supply chain. All in one place

OUR CAPABILITIES

Stay one step ahead of cyber threats with **Bison Tech's Security Operations Centre (SOC)**. Your **24/7 cybersecurity command hub**.

Our expert team continuously monitors your networks, endpoints, users, and cloud environments to detect, respond, and neutralize threats before they can impact your business.

Building and managing an in-house SOC can be complex and costly, but it doesn't have to be. With Bison Technology's SOC as a Service (SOCaaS), you get enterprise-grade protection, advanced threat intelligence, and rapid response capabilities, all without the heavy investment.

Protect your business. Strengthen your resilience. Partner with Bison Tech.

OUR CAPABILITIES

Managed Detection and Response (MDR) Always On, Always Watching

If your internal team is overextended, missing critical alerts, or unsure how to stay ahead of evolving cyber threats, Bison Tech's Managed Detection and Response (MDR) service has you covered. Our expert SOC team provides 24/7/365 monitoring, real-time threat detection, rapid containment, and incident response. Ensuring your business stays protected at all times.

Beyond continuous protection, we deliver comprehensive security management with monthly insight reports, quarterly threat analyses, and annual incident response exercises to strengthen your readiness. Our phishing simulations keep your team sharp and security aware.

***Stay protected. Stay informed. Stay resilient.
With Bison Tech MDR***

OUR CAPABILITIES

Cyber Incident Response **Be Ready Before It Happens**

When a cyber incident strikes, every second counts. Bison Tech's Cyber Incident Response services ensure your organisation is prepared to act fast, minimize impact, and recover with confidence.

Our team provides incident assessments, response planning, hands-on training, and real-world tabletop exercises, empowering your people, processes, and technology to handle any cyber threat effectively.

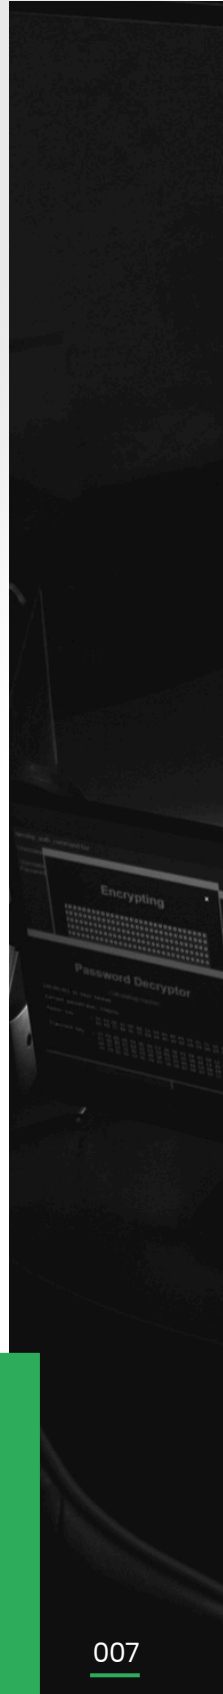

Prepare. Respond. Recover with Bison Tech by your side.

Supply Chain Security Strengthen Every Link

Your organisation is only as secure as your supply chain. Bison Tech's Supply Chain Security service gives you complete visibility into supplier risks and helps you build trust across your business ecosystem.

Through our expertly managed service and the powerful Vendor UpGuard dashboard, we continuously monitor, assess, and manage third-party risks ensuring your partners meet the same high security standards you do.

See clearly. Act confidently. Secure your supply chain with Bison Tech.

PATCH MANAGEMENT

Cyber Incident Response Be Ready Before It Happens

Outdated software and unpatched systems are a top entry point for cyber-attacks. Bison Tech's Patch Management services ensure your applications, operating systems, and endpoints are fully updated with the latest security patches.

Our team delivers proactive patch assessment, testing, deployment, and monitoring, keeping your systems secure, compliant, and operational with minimal disruption. By closing vulnerabilities before attackers can exploit them, Bison Tech helps you reduce risk, prevent downtime, and maintain business continuity.

***Stay protected. Stay compliant. Stay
operational with Bison Tech Patch
Management.***

Why Choose Bison Tech?

We combine expertise, technology, and real-time intelligence to deliver a holistic cybersecurity approach. From SOC and MDR services to incident response, supply chain security, penetration testing, and patch management, we provide everything your organization needs to stay secure, compliant, and resilient in today's rapidly evolving threat landscape.

- **24/7 Protection:** Around-the-clock monitoring and incident response.
- **Expert-Led Teams:** Skilled professionals with real-world experience.
- **Comprehensive Coverage:** From networks and endpoints to users and supply chains.
- **Proactive Threat Intelligence:** Early detection, containment, and mitigation.
- **Cost-Effective Solutions:** Enterprise-grade cybersecurity without the overhead of in-house operations.

Protect your business. Empower your team. Strengthen your digital ecosystem with Bison Tech.
